02/23/2019 17:35	3.78 s	E (58%)	D (66%)

Suggested Upgrade - Added Protection Available:

At Click IT, we believe there is no such thing as having too much security. That is why we recommend adding Website Security Essentials. See our additional Website Security Plans at <https://www.clickithosting.com/products/website-security> for pricing. These add-ons are in addition to this subscribed plan, which includes this report. Simply place your order at Click IT Hosting. If you don't know your username, password or pin for your hosting account, contact us.

- A Plugin upgrade may also be required. If so, you will be notified.

Note: Plugin costs are the responsibility of the client. Some plugins require a yearly maintenance fee to be paid, which will be billed separately at the time of occurrence.

Please also note that website performance and speed optimization is part of our monthly premium service at an extra cost. Typically, speed is affected simply by the size of the images provided by the client. If your website is rated poorly in performance, most websites can be improved for a very reasonable price by optimizing the images. The cost is dependent on the number of images. For a complete speed and performance test of your website, go to GT Metrix at

<https://gtmetrix.com>. Let us know if you want us to optimize the performance of your website.

Please remember to pay your monthly hosting, security, maintenance, and yearly domain renewal fees on time. Our hosting is billed and paid separately through our automated billing system at Click IT Hosting.

You can always call us at Click IT at (440) 247-4998 for more information or for further assistance, or email support@clickitgroup.com.

Thank you Laura M for your business and for placing your trust in Click IT.
